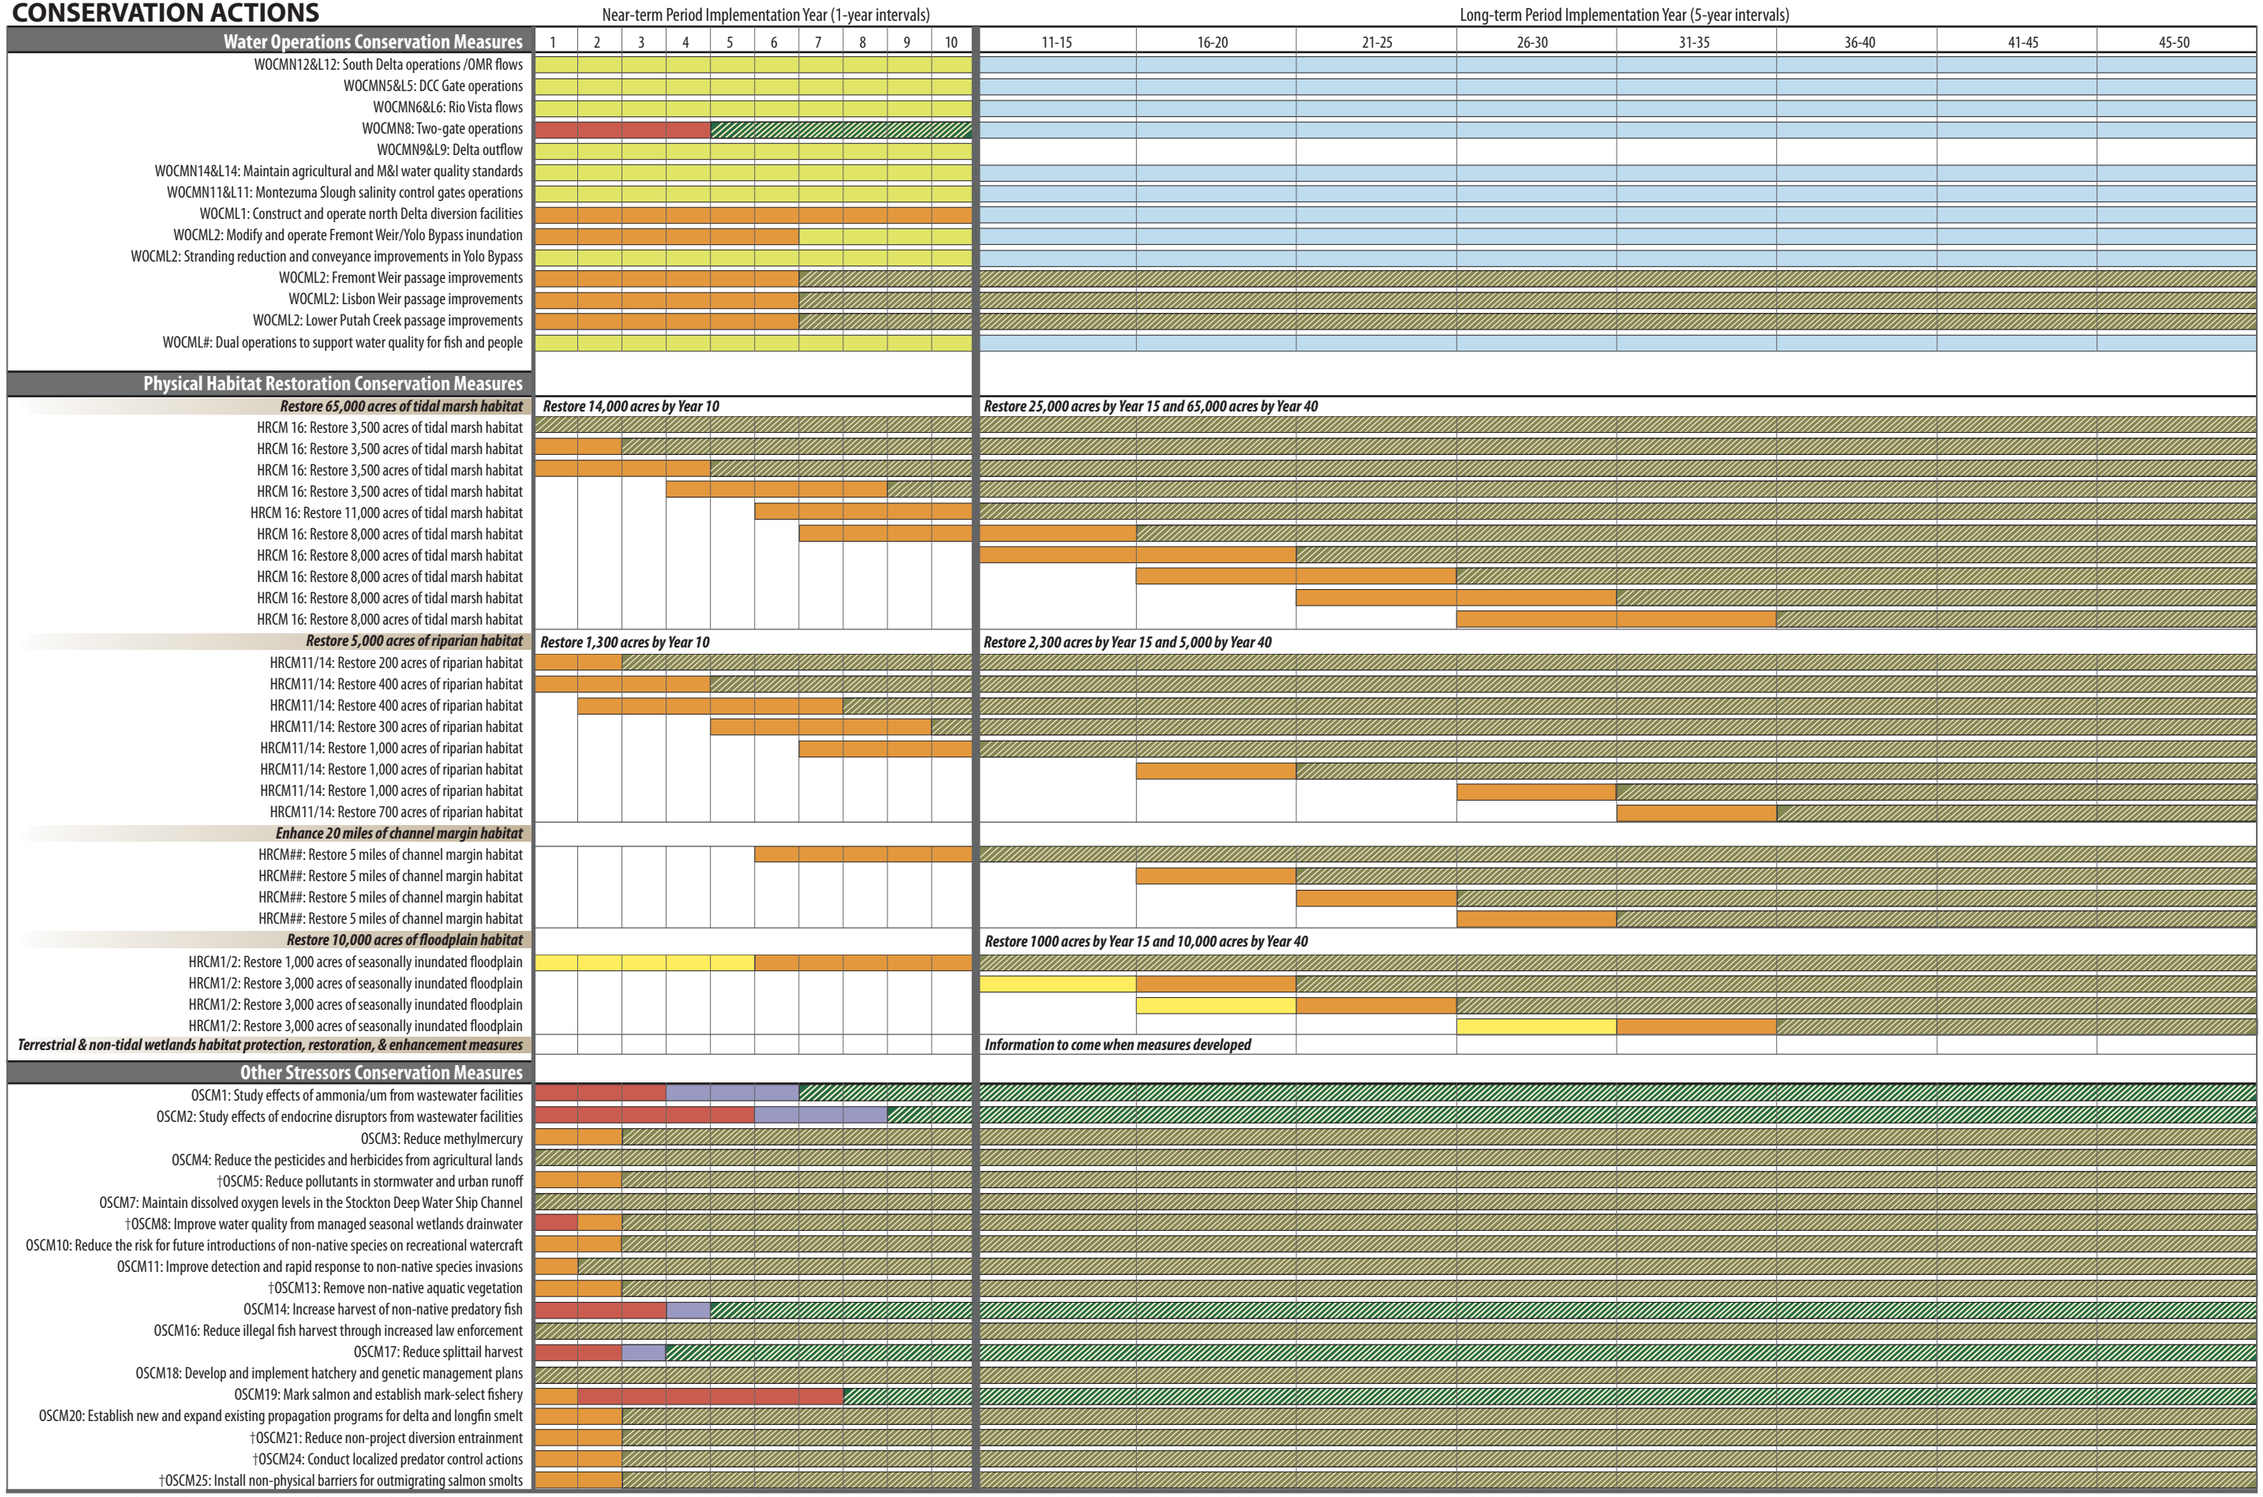
Figure 6-X. BDCP Conservation Measure Implementation Schedule following Issuance of BCDP Permits/Authorizations

CONSERVATION ACTIONS



Note to Reviewers: This table will support BDCP Chapter 6 Implementation Plan. The table presents a coarse-level estimate of the potential timing of implementation of BDCP conservation measures. The information in this table is preliminary and subject to change as more information is acquired.

† In addition to monitoring & adaptive management, this measure may require additional pilot studies and research before full implementation

LEGEND

- Near-term operations with monitoring & adaptive management
- Long-term operations with monitoring & adaptive management
- Conservation measure is implemented with monitoring & adaptive management
- Site acquisition, planning (including feasibility studies for channel margin habitat), environmental compliance, and construction
- Interagency coordination & feasibility evaluations conducted & completed
- Research & pilot studies implemented & completed
- If study results support implementation, site acquisition, planning, environmental compliance, and construction
- If study results support implementation, full conservation measure is implemented with monitoring & adaptive management
