

## Attachment 2

# DELTA REGION ECOSYSTEM RESTORATION IMPLEMENTATION PLAN

## Draft Outline – Contents

June 5, 2003

1. Introduction
  - 1.1 Plan Purpose
  - 1.2 Context of the Plan
  - 1.3 Plan Foundation
  - 1.4 Plan Overview and Organization
2. Scope and Basis for the Plan
  - 2.1 Geographic Scope
  - 2.2 Temporal Scope
  - 2.3 CALFED Program Documents
  - 2.4 Single Blueprint for Ecosystem Restoration and Species Recovery
  - 2.5 Scientific Basis
3. Environmental Setting: Baseline, Existing Conditions and Trends
  - 3.1 Historic Conditions
  - 3.2 Ecosystem Processes
    - 3.2.1 Central Valley Streamflows
    - 3.2.2 Central Valley Stream Temperatures
    - 3.2.3 Coarse Sediment Supply
    - 3.2.4 Natural Floodplains and Flood Processes
    - 3.2.5 Bay-Delta Hydrodynamics
    - 3.2.6 Bay-Delta Aquatic Foodweb
  - 3.3 Biological Environment
    - 3.3.1 Habitats
    - 3.3.2 Species
      - 3.3.2.1 Species Designated for Recovery
      - 3.3.2.2 Species Designated to Contribute to Recovery
      - 3.3.2.3 Species Designated to be Maintained
      - 3.3.2.4 Species Assemblages and Biotic Communities Designated for Enhancement and/or Conservation
      - 3.3.2.5 Harvested Species Designated to be Maintained or Enhanced
  - 3.4 Ecosystem Stressors
    - 3.4.1 Water Diversions
    - 3.4.2 Levees, Bridges, and Bank Protection
    - 3.4.3 Dredging and Sediment Disposal
    - 3.4.4 Non-native Invasive Species
    - 3.4.5 Predation and Competition
    - 3.4.6 Contaminants
    - 3.4.7 Fish and Wildlife Harvest
    - 3.4.8 Artificial Fish Propagation
    - 3.4.9 Stranding
    - 3.4.10 Disturbance
  - 3.5 Water and Sediment Quality
  - 3.6 Land Use
  - 3.7 Agriculture
  - 3.8 Planned Non-Ecosystem Projects
  - 3.9 Existing Infrastructure

- 3.10 Recreation
- 3.11 Climate and Sea Level Changes
- 3.12 Flood Management
- 4. Ecosystem Restoration Projects to Date
  - 4.1 CALFED Projects
  - 4.2 Non-CALFED Projects
- 5. Delta ERP Actions in an Adaptive Management Context
  - 5.1 Overarching Scientific Foundation
  - 5.2 Evaluation of Actions
    - 5.2.1 Rehabilitate Ecosystem Processes
    - 5.2.2 Re-establish Habitats
    - 5.3.2 Reduce/Eliminate Stressors
  - 5.3 Summary Table
  - 5.4 Show How All Actions Fit Into Larger Conceptual Model of the Delta
- 6. Implementation
  - 6.1 Context for Implementation
  - 6.2 Implementation Approaches
    - 6.2.1 ERP-Funded
    - 6.2.2 Integration With Other Ecosystem Restoration Programs and Plans
    - 6.2.3 Coordination With Other CALFED Program Elements
    - 6.2.4 Coordination With Other Non-Ecosystem Focused Programs
    - 6.2.5 Environmental Compliance
    - 6.2.6 Long-Term Stewardship and Committed Funding
  - 6.3 Priorities for Ecosystem Restoration
    - 6.3.1 Process
    - 6.3.2 Plan Priorities
  - 6.4 The Implementation Process in an Adaptive Management Framework
- 7. Monitoring and Assessment
  - 7.1 Delta Ecosystem Restoration Program Performance Measures and Delta Ecological Indicators
  - 7.2 Regional Monitoring and Assessment
  - 7.3 Delta Ecosystem Restoration Element/Program Evaluation
  - 7.4 Program Refinement
- 8. Literature Cited/Persons Consulted
- 9. Appendices
