

## Department of Fish and Game Release Waters as of April 15, 2010

DFG recently responded to a legal action challenging its hatchery and stocking operations, and completed an Environmental Impact Report/Environmental Impact Statement (EIR/EIS) that considers species and habitats affected by hatchery-raised rainbow trout. One of the conditions of the EIR/EIS is that each water planted throughout California must go through a Pre-Stocking Evaluation Protocol. This evaluation requires DFG to consider each sensitive or listed species in each water relative to the stocking of trout. DFG fisheries staff have made the evaluations a top priority, but until the review is completed and approved by our administration, rainbow trout or channel catfish cannot be stocked.

Region	County	Water Name
<a href="#">Region 1 - Northern Region</a>	Humboldt	Freshwater Lagoon
	Lassen	Ash Creek
	Lassen	Buckhorn Reservoir
	Lassen	Crater lake
	Lassen	Deer Heart Lake
	Lassen	Dodge Reservoir
	Lassen	Eagle Lake
