The Delta is an established recreational destination with an array of facilities. Given the importance of these facilities and the disparate political economic geography of the Delta, it was necessary to apply a multifaceted approach to survey these facilities. The first step in researching facilities was through a query of geocoded enterprises in the 2009 National Establishments Time-Series Database (NETS).<sup>1</sup> This identified Delta establishments by category from January 2009 Dun and Bradstreet enterprise data. The NETS data was then augmented with information from the Delta Chamber of Commerce utilizing its online directory, its Delta Visitor's Guide and its Delta Visitor's Map.<sup>2, 3, 4</sup> Further additions to the list of facilities were then made through reference to the Franko's Map of the California Delta.<sup>5</sup> After these enterprises were telephonically verified as being operational, subsequent additions were made on a facility by facility basis detailed in the respective sections.

Through this process the following facilities were identified:

	Establishments
Marinas	112
Camping/RV Facilities	64
Restaurants <sup>6</sup>	81
Fuel Docks	45
Boat Builders	16
Boat Dealers	35
Boat Repair Facilities	49

## Delta Marinas

---

Verified marina's from the initial stage were further augment with reference to the Delta Protection Commission's facilities list, the Department of Boating and Waterways facilities list, and the Delta Boating website.<sup>7,8,9</sup> These marinas were then verified as being operational telephonically. At all stages when contacting the marinas additional camping/recreational vehicle (RV), repair services, gas dock, restaurant, and convenience store facilities were also identified. As a result of this analysis 112 Delta marinas were identified, which are detailed in Tables I-1 & I-2 below. Of these 112 marinas: 45 had fuel docks, 23 offered repair services, 30 had restaurants, 44 offered camping/RV facilities, and 40 had convenience stores.
